

Construction Connection – April 22 - April 28

NEW Work Starting This Week

- **Outside:**
 - The Bus Stop on Queen Anne (heading south to downtown) is temporarily moving uphill on Queen Anne, north of West Aloha Street.
 - Concrete pouring begins at the electrical vault site.
- **Dumbwaiter Shaft:** Installation of steel railings in the shaft will begin.
- **Level 3:** Ceiling demolition, patching and painting work begins.

ONGOING WORK

- **Outside:** In the northeast area of the parking lot, concrete pouring continues.
- **Garage:** Concrete pouring continues intermittently for the shear walls and footings.
- **Plaza (Tower level B):** Demolition continues on the pool, former beauty shop, laundry and old maintenance shop.
- **Main Floor Entry:** This area has been walled off and is currently being demolished. The stairwell to the basement is open at this time.
- **Levels 1 & 10:** Core drilling for electrical work continues
- **Level 2 (ALU):** Work continues on the new dining area and activities area on the northeast side.
- **Transformer Vault** – Work on the vault will continue on the Queen Anne Ave side of Bayview.
