

Construction Connection – July 2-8, 2017

NEW WORK

- **Level 10:** Closed – demolition is well under way with ceilings, walls, bathroom and kitchen already demolished. There is just enough space when getting off the elevator on Level 10 to turn around and get back on the elevator. Sorry folks, nothing to see here!

ONGOING WORK

- **New elevator and dumbwaiter:** steel will be arriving this week and staged on the ground for construction of the shafts.
 - Intermittent concrete pouring will continue for the new elevator.
- **New building:** More prefabricated wood panels for the inner and outer walls will be delivered.
- **Level 2 (ALU):** The new dining & activities areas are open. The north wing corridor on Level 2 is closed and a barricade wall has been erected.
- **Levels 2 & 3:** Ceiling work continues: patching, painting, and ceiling tiles.
- **Levels 2-9:** Painting of the elevator doors will be done, but mostly at night.
- **All Levels:** New low voltage wiring for Wi-Fi will continue to be run up through the building from the Plaza Level to Level 10 in readiness for Wi-Fi and cable upgrades which are scheduled for the future. Installation of Wi-Fi equipment continues on each level in the electrical rooms.
- **Plaza Level-East:**
 - Walls, sheetrock and painting and ceiling grid installation continues.
