

Construction Connection – May 8 - 12

NEW Work Starting This Week

- **North stairwell** – Expect intermittent noise in preparation on north stairwell removal and preparation of elevator shaft.
- **Outside, northeast corner (outside kitchen):** Supports will be put in place to support the new decking for the outside patio of the new building addition.

ONGOING WORK

- **Outside:**
 - In the northeast area of the parking lot, concrete pouring continues.
 - Excavation of the transformer vault continues, along with concrete pours.
- **Tower Garage:** Concrete pouring continues intermittently for the shear walls and footings.
- **Dumbwaiter Shaft:** Installation of steel railings in the shaft continues.
- **Plaza (Tower level B/Terrace level C):**
 - Rough-in of plumbing in areas of the old pool, former beauty shop, laundry and old maintenance shop continues. After inspection, new walls will be constructed.
 - Overhead continues to be removed in front of the two elevators (by trash chute).
- **Main Floor Entry:** Continuing demolition in the entry/reception area.
- **Level 2 (ALU):** Work continues on the new dining area and activities area on the northeast side.
- **Level 3:** Ceiling demolition continues, along with patching and painting.
- **Levels 7, 8 & 9:** Case work installation continues.
