

Resident Guest Parking During Construction

Effective Tuesday, January 17, 2017 the front guest parking lot will close due to construction for approximately 12 months. Parking in Seattle is always a challenge and we realize that this closure will add additional difficulties for visiting.

The main entrance and reception for Bayview will move to the Terrace entrance located at ---- **20 West Queen Anne Driveway**. All entering and exiting from Bayview will be from this entry point.

Visitor parking will be available to guests of our Residents via a valet system from **10 am to 4 pm seven days a week**. We have hired a valet service to work with Bayview staff to provide this service located at the Terrace entrance. *(Continued on page 2)*

- a. During these hours guests will use the drop off zone at this entrance. Enter the building, sign in, receive their guest pass and proceed to the valet station in the lobby.
- b. Guests will be asked a few questions, keys will be given to the valet for parking. Returning to the valet station to have your car retrieved.
- c. Please note there is a maximum amount of cars that can be accommodated at any given time. If the lot is full, a sign will be posted in the drop off zone. Your option at this point would be street parking or local parking lots.

Whenever possible please utilize the metro system, Uber/taxi, or walking to visit.

As this is a new process for Bayview we will look to tweak the process with experience, a comment box will be located at the valet desk. We will be tracking utilization and making adjustments as appropriate. *Thank you so much for your cooperation.*
