

Construction Connection – Week of January 23

- **Level 1 / First Floor (west):** Rebuild continues, with a lot of sheetrock being put up.
- **Level 2 (ALU):** Work will continue on in the south central area and north east corner.
- **Levels 3-9:** Framing, drywall and electrical work will continue.
- **Levels 4-5:** Overhead corridor work continues with patching and painting.

TUESDAY, January 24 - Concrete pouring begins for the shear walls in the basement level as part of the seismic upgrade.

DURING THE WEEK - Crews will be working in the parking lot work and doing outside demolition of sidewalks, etc. ***Expect increased noise levels.***
