

## Construction Connection – 2/27/17-3/4/17

**\*\*Reminder: The pool closes Wednesday, March 1st.\*\***

**Tower main lobby:** The ceiling demolition in the center of the lobby continues. Barricades move daily according to the section being worked on.

- **Level 1 (West side):** Finish work continues on the new library, activity room, meeting room, restrooms and mail area.
- **Level 2 (ALU):** Work will continue in the south central area and north east corner.
- **Levels 3-9:** Case work, drywall and electrical work continues.
- **Level 4:** Carpeting installation through most of the week.
- **Levels 5-6:** Overhead corridor work continues with electrical work, patching and painting.
- **Levels 6-9:** Selected doors will be removed and in-filled.

### **DURING THE WEEK**

- Along Aloha Street, the shear wall will begin to be dug out and installed.
- Demolition work outside the end of the north wing but the noise will be at lesser levels.
- North stairwell - testing will begin to assess ability to reduce noise when stairwell is removed.
- Concrete pouring continues for the shear walls and footings in the basement level.
- Electrical rooms (former storage rooms) - core drilling for new power source may begin.
