COVID-19 Updates:

Testing:

We have completed all Health Center, Assisted Living, and Memory Care staff and resident testing. All test results have been negative. As of this writing, Bayview remains Covid-19 free thanks to all your hard work and abiding by protocols. Thank you so much for your part in great infection control.

Visitation:

We have postponed rolling back visitation restrictions until we receive further guidance from state agencies. We were anticipating additional guidance this week, but it has been postponed. As soon as we learn more information, we will promptly let you know.

Terrace Garden Food Court:

Our new Food Court opening has been delayed per rising infection rates in the greater community. We are observing the data closely and will let you know as soon as we're able to safely open our new dining venue. A "Food Court Tutorial" video will be out shortly to help everyone understand how it will work. Stay tuned!

Sincerely,

Bayview Crisis Communications & Executive Team
