

BAYVIEW

A POINT OF VIEW

1.21.21

VACCINATION PROCESS:

As promised, I want to communicate our basic vaccination plan on January 25th, 2021. If you have not completed your consent forms, please do so as soon as possible. For Independent Living Residents, please contact Heather Smith at 2313 and for staff, please contact your supervisor for any assistance. The following list are the people who will be vaccinated on **Monday January 25th, 2021**:

- Independent Living Residents – First vaccination
- Assisted Living Residents – First vaccination
- Memory Care Residents – First vaccination
- Skilled Nursing Facility Resident – First and second vaccinations
- Discharged Skilled Nursing Facility Residents – Second vaccinations
- Non-Clinical Staff – First and second vaccinations
- Clinical Staff – First and second vaccinations

There will be six (6) different clinic sites within Bayview. The location of the vaccination sites are:

- First floor – Kinnear room / Albertson Hall – Independent Living Residents.
- First floor – Studio and dining area – Non-clinical staff first and second vaccinations.
- Second Floor -TV room - Second floor Assisted Living residents, and Assisted Living clinical staff.
- Third floor – Home care office – Third floor Assisted Living residents.
- Dorothy's Place Living Room – Memory Care residents.
- Skilled Nursing Unit – Skilled Nursing residents and Skilled Nursing clinical staff.

The following times will be scheduled for vaccination. There will be Vaccination Ambassadors to assist in directing the location and times for you to arrive:

Independent Living Residents: Kinnear room / Albertson Hall

- 9th floor 10:30am
- 8th floor 11:30am
- 7th floor 12:30pm
- 6th floor 1:30pm

- 4:30pm Dietary Staff
- 4:30pm Stragglers

(Staff who have already received their first vaccinations, please bring your vaccination card to expedite your second booster shot. Please reach out to your supervisor with any questions.)

For clarity:

1. BE FLEXIBLE.
Even with the best laid plans, it will be inevitable that something will happen, and scheduled times may be delayed, expedited, or moved to accommodate unforeseen changes and events.
2. MAKE JANUARY 25TH, 2021 “VACCINATION DAY”!
Unless you have a medical emergency or a pre-planned medical appointment, plan on accomplishing only one (1) task on Monday – Your Vaccination!
3. VACCINATION AMBASSADORS WILL BE PRESENT TO ASSIST YOU.
Many employees will be readily available to guide you through the vaccination process. If you need assistance, just ask!
4. DO NOT USE THE NORTH OR TOWER ELEVATOR UNLESS PROMPTED BY AN EMPLOYEE.
Staff and residents alike should not use the elevators, at all, unless guided by a Vaccination Ambassador to expedite the smooth flow and process of vaccinations.
5. DO NOT LEAVE YOUR APARTMENT WITHOUT PROPERLY WEARING YOUR FACEMASK
It is essential that proper infection control procedures are adhered to during the entire vaccination process.
6. STRAGGLERS:
Stragglers are defined as people who had a pre-planned medical appointment, a medical emergency, or missed their scheduled time for some unforeseen reason.

7. MORE DETAILED INFORMATION TO FOLLOW

Be on the lookout for more detailed information on the flow of the vaccination process in this weeks' edition of the Bayview Weekly.

8. PEOPLE WITH IMMUNO-SUPPRESSANT MEDICATIONS OR OTHER COMORBIDITIES

There are presently no indications preventing people taking immuno-suppressant medications or people with several comorbidities preventing people to receive the COVID-19 vaccination. If you have specific questions about your particular medical condition(s), please consult your Primary Care Physician for more information.

9. ALLERGIES TO PREVIOUS VACCINATIONS

According to the first clinic held on January 4th, 2021, CVS would NOT administer the COVID-19 vaccination to people who have previously experienced allergic reactions to any other vaccinations. If you want to obtain COVID-19 vaccination and have experienced allergic reactions to any other vaccination in your past, please consult your **Primary Care Physician** (PCP) before Monday, January 25th, 2021. It will be necessary to obtain a written order from your PCP allowing vaccination. Present this order to the CVS pharmacist upon your scheduled vaccination time.

10. FREQUENTLY ASKED QUESTIONS

Attached to this memo are Frequently Asked Questions from CVS about the COVID-19 vaccination.

I would like to thank all of you that have been so patient with the Executive team on obtaining information about our impending vaccination clinics. We are all anxious to return to some semblance of normalcy, and the vaccine is the light that begins to shine at the end of the tunnel. Communication with CVS has been less than desirable, and as we see other communities receive vaccinations, read, or hear the media highlight other communities, and hear from the Governor how vaccinations will be accelerated, it is easy to become extremely frustrated with our Bayview journey towards vaccination. Vaccinations are here. We have finally made it!

SURFACE TESTING:

More results were obtained from surface tests this past week that shows an improvement of infection containment. However, there are still some inconclusive results that we are in the process of interpreting.

I would like to extend a hearty "Thank You" to all residents on the sixth (6th) floor that allowed surface testing to be conducted inside their apartment. We had a 100% participation rate, which shows our collective effort to route out this virus for the health and safety of all at Bayview. Test results should be obtained no later than Monday, January 25th, 2021 and will be shared at that time.

Sincerely,

Joel G. Smith
Health Services Administrator
