

September 16, 2024

The following are current COVID cases at Bayview:

- **1 independent living resident**
- **1 Bayview staff**

To clear outbreak status we need to have 14 days without a new COVID case. Our most recent positive case was reported on September 10, 2024.

Bayview staff will continue to wear masks throughout the building at this time.

- **All visitors are now required to wear a mask in public spaces.**

While we are not yet mandating masks for our independent residents, we strongly urge you to consider wearing a mask in public spaces knowing that we have residents at a higher risk for infection. Together we can stop the spread.

A few reminders:

- If you are not feeling well, please take care of yourself, consult your primary care physician if applicable, and stay home to avoid getting anyone else sick.
- We encourage the use of rapid self-tests, also called at-home tests, as a quick and convenient way to screen for COVID-19 on your own. You may find rapid tests in stores, pharmacies and online.

Please reach out with any questions or concerns you may have.

Sincerely,

Pamela Yeo
